Overview

This agreement is between Jupit Digital Service Limited, referred to as the "Client," and Toluwanimi Adeyemo, referred to as the "Front-end Developer," for the purpose of completing a Frontend Project for Jupit.

Project Description

The project entails developing the brand website and a frontend-web application which will be delivered to the Jupit within two months from the project's start date. The project will be executed in accordance with the project specifications and any other mutually agreed-upon requirements.

Project Payment

The client will pay a contract fee of ₦300,000.00 (Three Hundred Thousand Naira Only) to the Front-end Developer for the duration of the project. The payment will be made according to milestone achievements, with 25% of the payment being paid upon the completion of milestone 2 and another 25% upon the completion of milestone 4, which is the final milestone for stage one of the project. The remaining 50% will be paid in a similar manner during stage two of the project, with payments being made upon the completion of specified milestones.

Project Timeline

The project will commence on 29th May 2023 and is expected to be completed within two months from the start date. Both parties will collaborate to ensure that the project is completed within the agreed-upon timeline.

Milestone Breakdown

The breakdown of all milestones in stage one can be accessed through the link:
- ☞ Stage one milestone: Milestone Plan

Project Deliverable

S/N	Project	Usecase	Tech Stack
1.	Website	Company/Product Information	HTML, CSS, JavaScript, Responsive Design using CSS media queries and other responsive frameworks (e.g., Bootstrap)
2.	Website Application	User Interaction	Frontend Frameworks (React, Angular, or Vue.js), Mobile-Friendly Design Principles and Cross-Browser Compatibility.

Resources Deliverable

After the completion of the project, the following resources are expected to be delivered to the client:

- **Source code:** The complete source code of the website and frontend web application.

- **Documentation:** A comprehensive documentation guide that includes instructions on how to set up and deploy the application, explanations of the project's architecture and code structure, and any necessary guidelines for future maintenance or updates.

- **Project files:** All relevant project files, including configuration files, dependency lists, and any other necessary files required to run the application.

- **Testing and quality assurance reports:** Reports on the testing and quality assurance processes conducted during the development phase, including details of the tests performed, results, and any identified bugs or issues and their resolutions.

- **Design assets (if any):** Any design assets, such as images, icons, or graphics, that were specifically created or used for the frontend web application.

- **User guides**: If applicable, user guides or manuals that provide instructions on how to use the frontend web application, including any features or functionalities that may require explanation.

- **Licenses and attributions:** Information regarding any third-party libraries, frameworks, or components used in the project, along with their licenses and attributions, ensuring compliance with relevant copyright and licensing requirements.

Ownership and Rights

Upon successful completion and delivery of the project, all intellectual property rights and ownership will transfer to Jupit. The Front-end Developer will not retain any rights to the project or its deliverables.
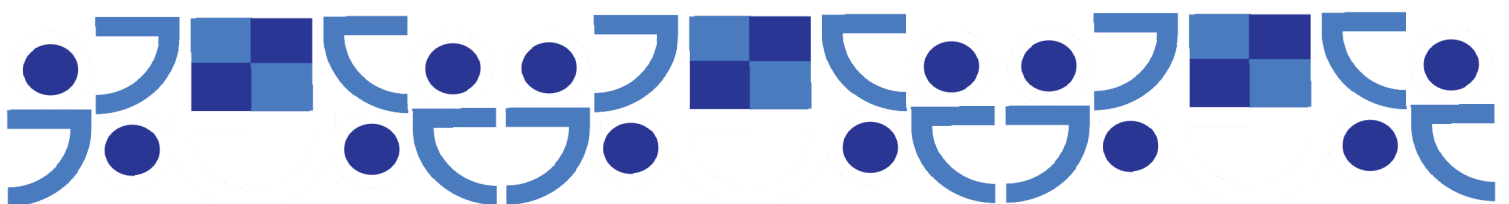

Confidentiality

Both parties agree to maintain strict confidentiality regarding any information related to the project, including but not limited to trade secrets, business practices, and any other information not in the public domain.

Termination

Either party may terminate this agreement by providing written notice of termination. The notice period for termination will be one week. In the event of termination, the Front-end Developer will be compensated for any completed work up to the termination date.

Governing Law

This agreement will be governed by and construed in accordance with the laws of Nigeria, without regard to its conflicts of law provisions.
